

Education

Interested in bettering your teaching practices with other like-minded teachers?

Consider National Board Certification!

National Board certification is a two-year process during which teachers learn & grow as educators through four components focused on mastering the best practices in teaching.

In Illinois, public school teachers who meet the eligibility requirements can have their certification components paid through a state subsidy.

Teachers may also join a cohort free of charge for guidance through the components and steps towards certification.

Other Perks:

ISBE professional development hours

Possible perks & incentives offered by your district

Study-tracked, measurable improvement in student achievement

Master Teacher designation on your teaching license
